RE: Exemption From Licensure Under N.C.G.S. 131F-3(4)

Dear Ms. Rhode:

After reviewing submitted and available information, the Department determines that North Carolina law exempts Alamance Community College Foundation from North Carolina's Charitable Solicitation Licensing requirements.

North Carolina General Statute 131F-3(4) exempts qualifying educational institutions and foundations or departments affiliated with such institutions from solicitation licensing requirements. Your organization meets relevant statutory and administrative requirements for exemption on this basis. As an exempt entity, your organization complies with relevant North Carolina law and does not have to acquire a solicitation license or file related financial reports with the Department.

Please be aware that any changes in your organization's structure, business practices, or affiliation may disqualify your organization from this exemption. The Department will review and may modify or cancel this exemption designation upon receipt or discovery of relevant changed information concerning your organization.

Please call or write us with any questions, you may have concerning this decision.

Sincerely yours,

A handwritten signature in cursive script that reads "Angelia Boone-Hicks".

Angelia Boone-Hicks
CSL Licensing Supervisor
