Dental Assisting II Program Description

The Dental Assisting Curriculum prepares individuals to assist the dentist in delivering dental treatment and to function as integral members of the dental team while performing chairside and related office and laboratory procedures.

Course work includes instruction in:

- general studies
- biomedical sciences
- dental sciences
- clinical sciences
- clinical practice.

A combination of lecture, laboratory, and clinical experiences provide students with detailed knowledge in infection/hazard control, radiography, dental materials, preventive dentistry, and clinical procedures.

Dental Assisting II Program Description

Some of the many expanded functions a DA II can legally perform are:

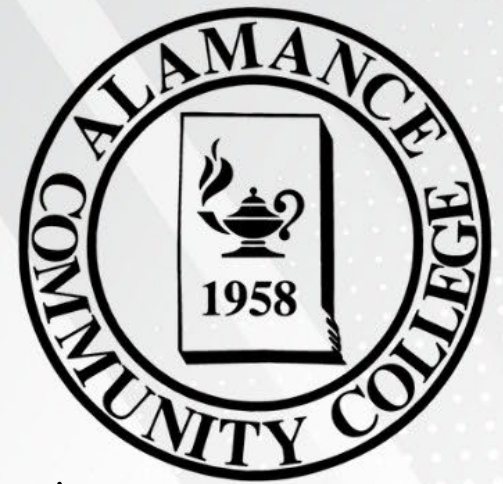

- ✓ apply sealants
- ✓ insert matrix bands and wedges
- ✓ place cavity bases and liners
- ✓ place and/or remove rubber dams
- ✓ place and remove temporary restorations
- ✓ take wax bites
- ✓ remove sutures
- ✓ expose radiographs
- ✓ perform coronal polish

Upon graduation, graduates will be classified as a **Dental Assistant II (DAII)**, as defined by **Dental Laws of North Carolina**

Graduates may be eligible to take the Dental Assisting National Board exam to become a Certified Dental Assistant, CDA

Dental Assistant Vs Dental Hygienist

Dental Assistants perform a wide range of dental and administrative patient care duties.

- Assists with a variety of dental functions
- Perform NC expanded functions
- Preparing & sterilizing dental instruments
- Processing x-rays and laboratory tasks
- Educating patients on healthy oral hygiene practices
- Scheduling follow-up appointments
- Processing billing and payment requests

Dental Hygienists responsibilities include cleaning teeth, examining patients for oral disease, and educating patients on preventive dental care practices.

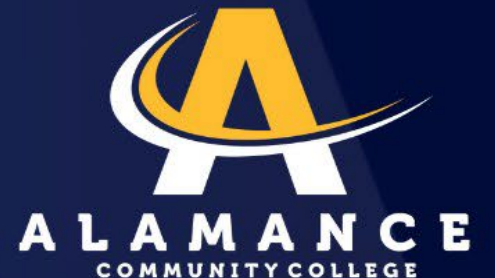

- Taking x-rays of patients mouths to check for problems with teeth or jaw alignment
- Removing tartar, stains and plaque from patients' teeth and applying fluoride treatment.
- Completing oral health assessments
- Taking notes regarding patient care and treatment plans
- Educating patients on brushing and flossing properly for optimum dental health

Limited Enrollment

“

Although we would love to accept everyone into our Dental Assisting II programs, space is limited. Dental Assisting is limited enrollment, which means students must apply for the program. There are specific admission criteria, a separate admission application, and ranking processes that determine who will be admitted to the program.

– Joanna Roberts, Dental Assisting II Department Head

Points for Dental Assisting Ranking General Education Requirements

- ENG 111 – Writing and Inquiry
- PSY 150 – General Psychology
- BIO 163 – Basic Anatomy & Physiology or
- BIO 168 & 169 – Anatomy & Physiology I and II

Grades of A's and B's receive the most points.
A minimum grade of "C" is required for all general education courses.

Professional Technical Standards

Essential Functions & Technical Standards reflect reasonable expectations of a student on the Dental Assisting Program for the performance of common dental assisting functions. In adopting these standards the DA program is mindful of the patient's right to safe and quality dental care by students.

- ✓ **Critical Thinking/Problem Solving**
 - ✓ **Interpersonal Skills**
 - ✓ **Coping Skills**
- ✓ **Communication Skills**
- ✓ **Mobility/Motor Skills**
 - ✓ **Hearing Skills**
 - ✓ **Visual Skills**
 - ✓ **Tactile Skills**
- ✓ **Behavioral/Emotional**

IMPORTANT NOTE TO APPLICANTS: *Infection control guidelines for the Dental Assisting program have been developed to protect the student and the patient from disease transmission and are articulated in specific program courses. Students will have the knowledge and skill to deliver patient care safely through classroom instruction and laboratory experiences. A student in the dental assisting program is at an increased risk for exposure to a variety of diseases including Hepatitis C, HIV/AIDS, and tuberculosis. Because of these risks, students are expected to follow all infection/hazard control guidelines that have been established within the program and other infection control agencies.*

ADMISSION REQUIREMENTS

Part 1

- ✓ Submit ACC application for admission - www.alamancecc.edu (Early application is important for Selective Enrollment programs as seats are limited)
- ✓ Complete NC Residency Verification
- ✓ Submit high school and post secondary transcripts
- ✓ Apply for Financial Aid - www.fafsa.gov
- ✓ Activate your ACCess student email account
- ✓ Attend or complete required Pre-Dental Information Session
- ✓ Make an appointment with your Health Sciences Advisor team

Note: It is YOUR responsibility to ensure that ACC's Admissions Office has received all of the above required documents

ADMISSION REQUIREMENTS PART 2

Once submitted transcripts are reviewed and evaluated, appropriate English and Math courses will be determined

2.0 GPA required

Application Submission

- ✓ Attended or completed Pre-Dental Information Session
- ✓ Maintained a 2.0 GPA or better
- ✓ Passed all General Education required courses with a grade of C or better
- ✓ Completed and submitted the online Dental Assisting II application

Dental Assisting II Application Due Dates

April 4th – Alamance Community College Day and Evening programs, Fall start

October 20th – University of North Carolina-Alamance Community College Day program, Spring start
